

PHYSICAL AGENT MODALITIES for Rehab

This workshop offers the practicing clinician an opportunity to gain new knowledge and update existing skills in the area of application, electrotherapy and therapeutic ultrasound.

AT THE SUCCESSFUL COMPLETION OF THIS COURSE, PARTICIPANTS WILL LEAVE WITH:

- Evidence-based approach to the dosing and application of electrical stimulation and ultrasound.
- Knowledge of indications, physiological effects, contraindications, and contemporary research to deliver safe and effective electrotherapy and ultrasound treatments.
- The physiological effects, indications, and contraindications related to the application of electrotherapy and ultrasound.
- Common myths and errors in parameter selection and application of electrotherapy.
